

WORLD IMMUNIZATION WEEK

This week, we are reminded of the impact vaccinations have in the fight against diseases like cervical cancer — the second leading cause of death among women in India. At Share & Care, we are committed to changing this statistic through our dedicated HPV vaccine program in partnership with the Rajkot Cancer Society.

Impact of Your Support

Thanks to the generosity of donors like you, since 2020, we have helped reduce the incidence of cervical cancer through the below:

8,000

HPV vaccinations
administered

500+

healthcare
camps hosted

200,000

individuals
taught

The Challenge Ahead

Despite our progress, thousands remain at risk due to a lack of access to healthcare and vital information. This year, our goal is to reach 10,000 more girls — **but we can only do so with your support.**

Here's what your donation can achieve:

- Provide education and vaccination for girls
- Support a small community workshop
- Sponsor a community-wide vaccination camp

DONATE TODAY

Every contribution brings us closer to a world where no woman suffers from cervical cancer due to preventability.

Thank you for your continued support and compassion. **Together, we can save lives and create a healthier future for all.**
